

# Invitation

In week 33, Odense will be the centre for product overviews, lots of inspiration and good bargains.

We are very much looking forward to welcoming you to our August fair in our new domicile for the first time.

We zoom in on topical Danish and international cultures, enabling you to plan ahead.

Abuzz with inspiration, the combination of Marketplace and August fair provides the perfect launch pad for autumn sales and spring planning.

The courtyard has been replaced by a new, neatly trimmed green area offering a plethora of opportunities for staying up to date with new cultures, varieties and colours. Once again this year, GASA Young Plants allows us a peek into the world of small plants - with focus on ready-to-sell-products.

You can inspect a number of top varieties from Dümmer Orange directly here at us. We provide technical advice and important information for your planning of the 2020 season, both as manufacturer and purchaser.

We are looking forward to your registration and are happy to help with hotel bookings.

Kind regards

Team GASA GROUP Denmark
