Summer Paradise

Summer Series

The tallest and most vigorous garden Alstroemeria

The Summer Series is the tallest and most vigorous garden perennial in the Alstroemeria assortment. The Summer Alstroemeria will produce an unbroken display of flowers from May until November.

Every year the plant gets more vigorous, like a true superstar perennial. With the beautiful tall stems the Summer Series is ideal for borders in the background. As an added bonus the tall stems are perfect to pick flowers and create your own bouquet. The Summer Series is a true garden performer, but suits a big container just as well. For optimal revenue sell the product as semi-finished for maximum loading factor and shorter cultivation time.
