2020-2021

ENG

Corporate Social Responsibility

*With deep-rooted commitment to our people and our planet,
Dümmen Orange is **uniting the world through the language of flowers.***

COMMUNITY INVOLVEMENT

Over 15 local projects worldwide ranging from shoes for schools, to toys for children

31 million liters of fresh water provided to African staff and their families at home

Free tree seedlings provided to our staff in El Salvador to promote reforestation in their community

WORKING CONDITIONS

1.5 million free meals served to staff in Africa and Latin America

EUR 1 million in donations for education and culture committed over 3 years, including our US-scholarship

Free health care benefits for staff and their families on our farms in Africa and Latin America, including daycare, vaccinations, HIV tests and support

ENVIRONMENT

70% reduction of toxic load due to our new GreenGuard policy

31,000 additional trees planted worldwide because of our commitment to reforestation

13.5 ha of land restored worldwide because of rehabilitation of local environments

TRANSPARENCY

Over 90 audits passed worldwide

Certifications received from global institutions, including MPS and Fairtrade

Meet our highlight

Red Bull

As the name of this variety suggests, the plant has a lot of **energy** going on. Its flowers are **dark** and **shiny** which give them an intense red color. Due to the dark green leaves on the plant, the flowers even **stand out more**, also the large flower size is contributing to this.

ANTHURIUM

Large Pot

(14-17 cm pot)

The largest of them all, varieties in this section are suitable for 14 to 17 cm pots. Colors vary from white, to pink, purple and red. These plants have a bushy structure, are rich flowering and have a good shelf life. With varieties like Red Winner, King Pink and Beauty Queen we have a lot to offer

(12 cm pot)

Pops up your room! The flowers of Popcorn are different from the 'normal' orchids you know, they are much smaller and each plants carries at least 50 flowers. Colors vary from white and yellow to pink and purple. With this color range it matches every interior, regardless the style: retro, industrial, rustic or designer. Popcorn makes every house a home. All varieties are suitable for cultivation in 12 cm pots

PHALAENOPSIS
GENERATION

HELICONIA

Heliconia

It won't get more tropical than this! Heliconia is native to South America and was first described in 1786. Years later this plant is used to give any interior an exotic touch, with its dark green leaves and intense colored flowers it's a real eye catcher! The slender shaped flowers come in orange, red and yellow tones. Plant height depends on the pot size the plant is grown in but can vary from 50 to 80 cm. Young plants are suitable to grow in 17, 19 and 21 cm pots

CALATHEA

TROPICAL PLANTS

Calathea

Calathea is the perfect indoor plant, its leaves come in a wide range of patterns. Like the dark green pattern on our variety Cora. Did you know that you can actually see this plant is 'alive'? The decorative leaves open during day time and stand vertically - as if they are sleeping - during night. Calathea is perfect for those shady spots in your home, as they adapt well to shade or indirect sunlight. Our young plants are available for cultivation in 14cm, 17cm and larger pots

A close-up photograph of a Bougainvillea plant. The image features several large, vibrant pink bracts with prominent veins. Two small, white, five-petaled flowers are visible, each with a yellow center. The background is a soft-focus green, suggesting foliage. A white rectangular border frames the central part of the image, enclosing the flowers and the text.

BOUGAINVILLEA

TROPICAL PLANTS

Bougainvillea

Bougainvillea is native to South America, but also common to Mediterranean countries like Spain and Greece. In colder regions it's a great houseplant that gets holiday vibes going.

As soon as temperatures rise above 14 degrees Celsius this plant is a nice addition to your terrace or balcony. Especially the Vera® collection is very suitable for outdoor use. A strong collection with improved durability, the flower bunches keep their intense color over a long period
