INTICANCHA

SUN SERIES

Sun loving Alstroemeria

The Inticancha® Sun Series consists of varieties that love the sun and heat more than any other Alstroemeria. The Sun Series is perfect for outside cultivation and has less flower-combustion in the sun. Besides these strong characteristics these Inticancha® varieties are just as easy to maintain, have large flowers, are strong and will flower continuously from Spring until Autumn.

The *retail combo* varieties of the Inticancha® Series are a great fit with these Sun varieties.
