Sunflor

Versatile Dianthus that can be used indoor and outdoor

Sunflor® is a versatile Dianthus series because this Dianthus can be used both indoor and outdoor. The series is available in an extensive strong colourful assortment. The Sunflor® Series flowers from Spring until late Autumn, tolerates temperatures from -5 to -10 °C and has compact growing habits with a short crop time. These varieties are versatile and perfect for the garden, patio planters and indoor use.

Every Sunflor® is a great performer. Selected varieties are a better fit for retail and are perfect for bench-run sales. You'll recognize these varieties by the label *retail combo*. Within the Sunflor® assortment there are two retail combinations.
