JWLS

HELLEBORUS

Helleborus JWLS® is the perfect winter perennial

The Helleborus JWLS® Series varieties are displaying unique characteristics. These true perennials are heat-tolerant and, since they are from tissue culture, suitable for controlled growth by programmed cultivation. Take for instance the Winterbells. This variety is truly unique, because Winterbells starts flowering in September and has a flowering period up to 7 months. Helleborus JWLS® is the perfect winter-flowering perennial for the garden.
